

Title 157 - STATE FIRE MARSHAL

Chapter 8 - PERMISSIBLE FIREWORKS IN THE STATE OF NEBRASKA FOR 2004

001. Please be advised that the following fireworks have been approved for sale and discharge by the Nebraska State Fire Marshal. New items for 2004 are listed in **BOLD** print.

Fireworks not listed or described in this Chapter are NOT PERMISSIBLE. Individuals found in possession or attempting to buy, sell, transport or manufacture illegal fireworks will be prosecuted to the fullest extent of the law.

All Distributors, Jobbers or Retailers MUST complete a Fireworks License Application prior to the purchase, delivery and sale of permissible fireworks. Retail applications postmarked or submitted after June 10th of any year must include a fifty-dollar (\$50.00) late fee. Please check with your city or village officials because their license and fireworks requirements may vary from the State Fire Marshal's rules and regulations. Fireworks may only be purchased from licensed distributor. Applications are now available online at www.sfm.state.ne.us.

Any fireworks that are shot into the air must be destroyed in the air and not come to the ground hot or with flames. Items that have inserts are acceptable only if the inserts come to the ground cool and appear on this approved list.

002. Display Shell Items and Reloadable Artillery Shells.

All reloadable fireworks and display fireworks with firing tubes larger than one and three-quarters inch (1-3/4") in diameter are not permissible or legal. Reloadable fireworks may contain a maximum of six (6) single break shells or inserts per package. **New for 2004.** **Reloadable artillery shells must also be listed by a specific name.**

003. Firecrackers.

Firecrackers cannot contain more than 50 milligrams of explosive composition.

Firecrackers with water-resistant safety fuses which are one and one-half inches in length or longer (commonly known as "inch and halfers") ARE PROHIBITED. However, Firecrackers with similar water-resistant safety fuses that are no longer than one and one-half inch(1½") in length are permissible

Any individual firecrackers' dimensions cannot exceed 2 inches (2") in length and three-eighth of an inch (3/8") in diameter. This includes Ladyfinger-type fireworks with dimensions that do not exceed seven-eighth of an inch (7/8") in length and one-eighth of an inch (1/8") in diameter.
